

## A43 Syresham Bypass – northbound overnight road closures

### e-Bulletin – 8 January 2025

I'm writing to let you know that we'll soon be carrying out essential maintenance works on the A43 northbound, between Brackley and Syresham.

The scheme will reinstate a section of the existing embankment on the A43 northbound carriageway, while also improving the existing drainage, and replanting on the slope.

### Overnight closures for site clearance works – January 2025

Our works will start in mid-January 2025 with the advanced site clearance. To carry out this work safely, and to minimise disruption to A43 road users, we'll complete the works overnight when traffic counts are at their lowest.

Closure Location	Dates
<b>A43 northbound</b> between the <b>Northampton Road roundabout</b> and the <b>B4525 Syresham Junction</b>	<b>20 to 24 January</b> , each night, from <b>8.00pm to 6.00am</b>

During the overnight closures, northbound traffic will be diverted south on the A43, before travelling east on the A421 towards Buckingham. They then be diverted north on the A413, and then east on the A422 towards Stony Stratford, before joining the A5 northbound towards Towcester, where they can then access the A43 (please see the diversion route map at the end of this letter).

### Access for Whitfield residents

Customers who live in Whitfield will still be able to access the village during the overnight closures, via a meeting point at the BP service station. Simply go to the garage forecourt and speak to one of our Chevron traffic management team (who'll be waiting in Chevron branded vehicles), and they'll take you safely through our roadworks and into the village. If one of our team isn't at the BP service station when you arrive, then please wait a few minutes, as they'll be escorting another resident through the roadworks, and will soon return to help you as well.

Please ensure you pass this information on to any family, friends or carers who might be visiting during this time. All dates are subject to change due to operational needs or adverse weather.

### Main programme of works schedule

Following the initial week of closures, we'll move on to the main programme of works, which'll require overnight closures of the A43 northbound carriageway each weeknight between 8pm and 6am, from 3 March until early summer 2025. We understand that this will be challenging for local residents and road users, but we need to close the A43 northbound carriageway each night to provide a suitable and safe working area for our team to reinstate the existing embankment. We're currently

working to reduce the length of our programme by co-ordinating with our major schemes in the area, and we'll look forward to providing you with an update regarding this in the near future should it be deemed feasible and safe to do so.

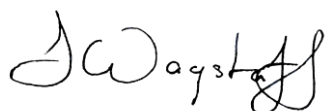

### Get in touch

If you have any questions about this work, you can call the National Highways Customer Contact Centre on 0300 123 5000, or email [info@nationalhighways.co.uk](mailto:info@nationalhighways.co.uk)

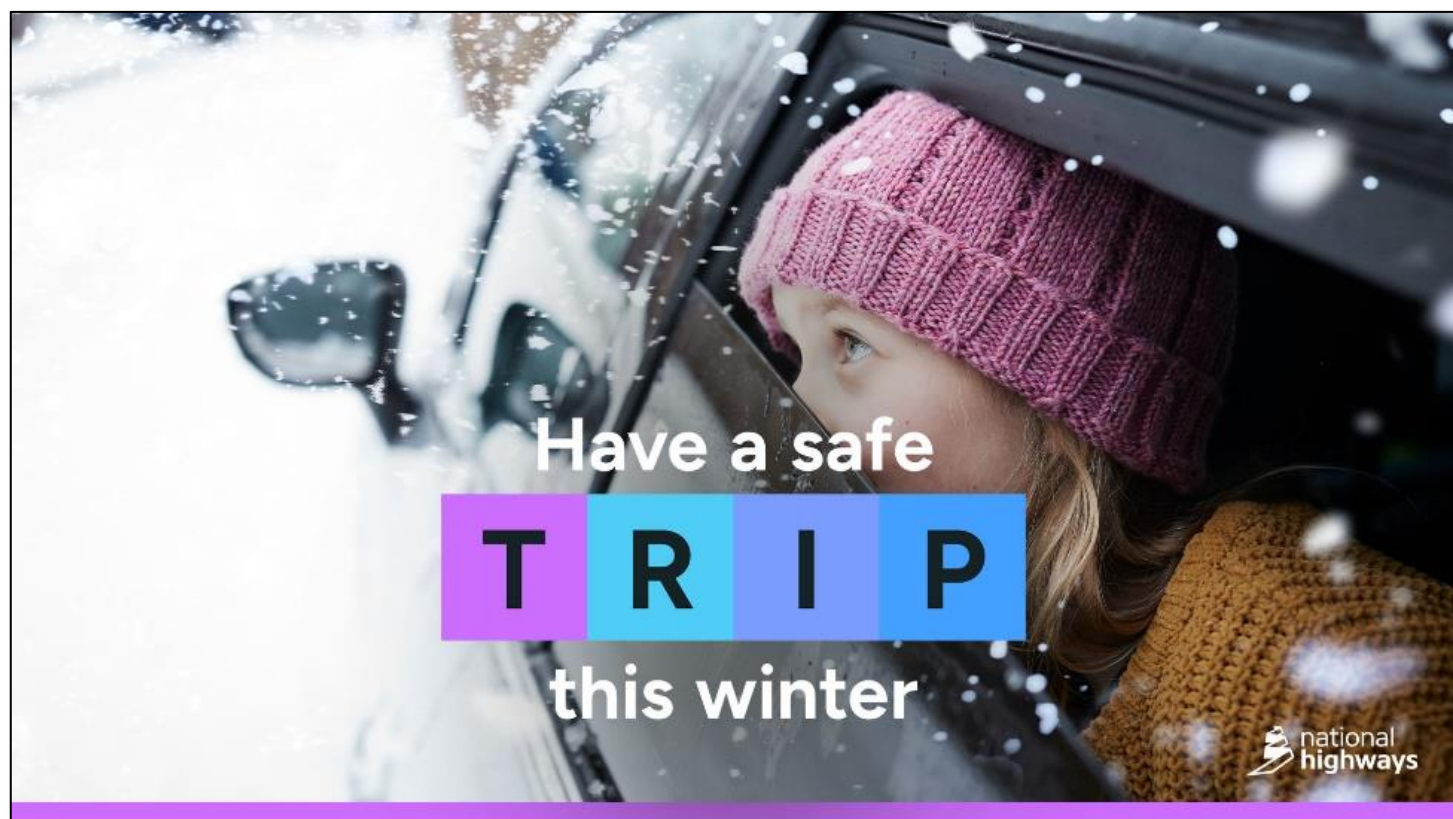

You can also keep up to date on road closures by visiting our Traffic England website at [www.trafficengland.com](http://www.trafficengland.com) or by following our X (formerly Twitter) feed: @HighwaysWMids.

You can find more information about the scheme by visiting our webpage at <https://nationalhighways.co.uk/our-roads/east-midlands/east-midlands-maintenance-schemes> where you can also register to receive emails whenever new information is published, ensuring you're kept up-to-date on the scheme's progress. Or, if you'd like to receive email updates regarding the scheme, please email

Yours faithfully,

Simon Wagstaff  
National Highways

## A43 Syresham Bypass – Northbound carriageway closure diversion route
